### CodeFinder™ Tool DISCLAIMER

**Important Notices and Disclaimers:** By using this CodeFinder™ tool (the “tool”), you agree to the terms and conditions of this agreement. Publication of this tool is for the sole purpose of creating general public awareness of some of the jurisdictions where Authorities Having Jurisdiction (“AHJs”) may require the use of NFPA codes and/or standards. While we request that jurisdictions report their use of or amendment to NFPA codes and standards, we are unable to require this reporting, and therefore this tool is not a comprehensive or exhaustive list nor are amendments to NFPA codes and/or standards reflected in this information. In addition, while the information reflected in this tool is updated from time to time, it may not reflect current regulations, requirements, editions or AHJs. In no event should a user rely on this tool as a complete source of information about the local, state, federal or other legal or regulatory requirements applicable in any jurisdiction whatsoever.

**IMPORTANT NOTE:** The tool includes a color-coded map. The map reflects only the most up-to-date edition of a particular code or standard incorporated by any AHJ in the state or country, but *not necessarily* the edition of the code or standard that controls the entire jurisdiction. For example, if one city in a state has incorporated the most recent edition of an NFPA standard, the color-coding for that *state* will reflect this most recent edition, even if it has not been incorporated state-wide.

**This tool is designed to be informational and**
